

Beauty Verify

AI-Powered Authenticity Platform for Beauty Industry

Presented by: Ilma Bano

AI + Barcode + QR Verification System

Problem

The Problem

- Fake cosmetics are increasing in the market
- Consumers cannot identify original products
- Counterfeit products create health risks
- Brands lose customer trust

Solution

Our Solution

AI-powered product verification platform

Scan → Analyze → Trust Score

Helps users verify before purchase

Creates transparency between brands and customers

Key Features

1. *Barcode Scanner*

Scan 13-digit product barcode

2. *QR Scanner*

Instant QR verification

3. *AI Packaging Analysis*

Checks packaging details

4. *Trust Score*

Provides authenticity confidence

AI Fraud Guard

Smart Fake Detection System

Zero Blind Approval

The system never auto-approves every uploaded file as authentic.

Intelligent Rejection

Blank, low-detail or unrelated images are immediately flagged.

Error Output

"Packaging Analysis Failed
- Invalid Product Specimen"
0% confidence score.

Photo Upload

User uploads product image for verification

AI Analysis

AI inspects packaging, labels, text, seal, colors, and patterns

YES

Product Match Found?

NO

Authentic

High Confidence Score

(Example: 95%)

Unverified / Fake

0% Confidence Score

(Example: 0%)

Strict Error State

Automatically displays
"Packaging Analysis Failed
- Invalid Product Specimen"
with a 0% confidence score.

Technology Stack

Frontend:

React.js + Tailwind CSS

Database:

CSV Product Registry

AI Logic:

Packaging Analysis Engine

Scanner:

Barcode + QR Camera System

Business Model

Consumers

Free verification

Brands

Subscription dashboard

Analytics

Counterfeit market insights

Target Market

1. **Everyday Shoppers:** Beauty enthusiasts buying cosmetics from unverified online & retail stores.
2. **Premium Brands:** Conglomerates (Sugar, Lakme, Nivea) fighting to protect revenue & reputation.
3. **E-commerce Platforms:** Marketplaces (Nykaa, Amazon) looking to audit & block fake listings.

Future Roadmap

Content

Mobile App

Android & iOS Launch

Brand Partnerships

Connect with Leading Beauty Brands

Global Expansion

Expand Beyond India

Live Demo Flow

1. Scan Barcode/QR

2. Product Found

3. Trust Score Generated

4. Verification Result

Conclusion

Vision Statement: "Buy Beauty Products With Confidence. Authenticity, Guaranteed".
